AT MINERAL PROCESSING

For more than 60 years, **AT MINERAL PROCESSING** Europe has been informing engineers about developments and solutions in the processing of mineral raw materials. All process stages such as crushing, agglomerating, screening and classifying, separating, flotation as well as material transportation and storage are highlighted, particularly from a technical, but also from an economic point of view. The technical focus within the broad range of topics makes **AT MINERAL PROCESSING Europe** a unique brand with 10 issues per year. The trade magazine is published completely bilingually in German/English. In addition, **AT MINERAL PROCESSING Worldwide** is distributed in English with 5 issues per year in non-European regions; the two brands are accompanied by their respective websites.

Data formats: Please deliver the files in the format of the advertisement as PDF/X3 or PDF/X4. We expect a PDF with embedded fonts, only CMYK elements and images in a resolution of 300 dpi. Advertisements in bleed format must be created with a 3 mm filled bleed on all edges. Any bleed marks must be placed at least 3 mm from the net format. Relevant information must be placed at least 3 mm from the page edge on all four pages. When booking the 2nd and 3rd cover page, a minimum distance of 8 mm to the band must be maintained.

Colours: The colour mode is CMYK. The colour profile is ISO Coated v2 300%. If RGB colours are used, there will be colour differences.

Data acceptance/archiving: All files sent to us must be copies, the originals should remain with you until the respective issue is published for security reasons. The documents and directories must have a unique job and page name. Avoid special characters, spaces and umlauts in your file names if possible.

Data is archived, so unchanged repetitions are usually possible. However, no data guarantee is given.

Guarantee: The client shall assume the guarantee for repro quality and correct data transmission. Deviations due to the delivery of faulty data do not constitute grounds for complaint on the part of the client. Slight deviations in tonal values are within the tolerance range of the printing process

Show our users your expertise on a topic, demonstrate your problem-solving skills, or explain the benefits of your product in detail - the occasions for an online advertorial can be many and varied. The online advertorial is promoted with a comprehensive 4-week communication package consisting of the following components:

- permanent online contribution on www.AT-MINERALS.com (can still be found via search after the 4 weeks)
- Editorial teaser on the start page with link to the online article (subject to availability)
- Medium rectangle with placement on the complete website as teaser with link to the online article
- 1 Text ad in the **AT-Newsletter** with link to the online article
- Promoted Facebook post via the Facebook fan page of **AT MINERAL PROCESSING** with link to the online article
- Please deliver the online post in German and English

Price: 2,912.00 € plus VAT.
 (Price for 28 days / 4 weeks)

The screenshot shows the AT Mineral Processing website interface. At the top, there is a navigation bar with the AT logo and 'MINERAL PROCESSING' text. Below the navigation bar, there is a search bar and a 'Social Media' section with icons for Facebook, LinkedIn, and a Newsletter. The main content area features an article titled 'Erz-Aufbereiter aus dem südlichen Afrika können jetzt Sortiersysteme von Steinert vor Ort testen'. The article text discusses the installation of a sorting system at the Goldmine Navachab in Namibia, highlighting the benefits of the technology and the expertise of Steinert. A blue Facebook icon is overlaid on the bottom left of the screenshot.

All prices plus 19 % VAT. Agency commission 15 %. You can find the terms and conditions at: <https://bauverlag.de/en/terms>

Video advertorials that will convince you!

Moving images attract attention. Content and products can be presented in a more lively and emotional way, making them easier to perceive.

In contrast to classic commercials, video advertorials convey information, tips or stories that appear valuable to the viewer while subtly promoting a product, service or brand.

The focus is often on providing the audience with useful content while raising awareness of the advertised brand, without the advertising taking center stage.

Bauverlag not only has access to the target group, but also the expertise to implement an individual storyline perfectly and tailor-made for the customer in the construction industry. The Bauverlag brands also provide neutrality and credibility for your communication goals.

When will we realize our joint video project?
