BFT INTERNATIONAL Concrete Plant + Precast Technology

BFT INTERNATIONAL is the multimedia information source for manufacturers of concrete products and precast elements as well as for companies active in precast construction. It is aimed primarily at managers in this important industrial sector. At the heart of the Media brand is the industry magazine, which has been recognized for over nine decades and is circulated worldwide. BFT INTERNATIONAL's specialist articles can also be read online on the website and are distributed via the newsletter and the brand's strong social media presence. In this way BFT INTERNATIONAL acts as an intermediary between the building materials machinery/supply industry and concrete plants as well as a platform for an international exchange of experience, taking into account the latest scientific findings.

Video advertorials that will convince you!

Moving images attract attention. Content and products can be presented in a more lively and emotional way, making them easier to perceive.

In contrast to classic commercials, video advertorials convey information, tips or stories that appear valuable to the viewer while subtly promoting a product, service or brand.

The focus is often on providing the audience with useful content while raising awareness of the advertised brand, without the advertising taking center stage.

Bauverlag not only has access to the target group, but also the expertise to implement an individual storyline perfectly and tailor-made for the customer in the construction industry. The Bauverlag brands also provide neutrality and credibility for your communication goals.

When will we realize our joint video project?
