Video advertorials that will convince you!

Moving images attract attention. Content and products can be presented in a more lively and emotional way, making them easier to perceive.

In contrast to classic commercials, video advertorials convey information, tips or stories that appear valuable to the viewer while subtly promoting a product, service or brand.

The focus is often on providing the audience with useful content while raising awareness of the advertised brand, without the advertising taking center stage.

Bauverlag not only has access to the target group, but also the expertise to implement an individual storyline perfectly and tailor-made for the customer in the construction industry. The Bauverlag brands also provide neutrality and credibility for your communication goals.

When will we realize our joint video project?
